

# Invitation for Interns

Related *our sixth Summer Academy “Perspectives”* edition, we send an appeal to European students who are studying in social, economics, ecology and humanitarian bachelor and master programs. We welcome them to become our interns and take part in our unique Summer Academy. The aim of this Academy is to give opportunities for active joining of children and youngsters in the small towns and villages of Bulgaria. Also, by getting to know the European students the youth here will develop in higher way. A *main issue* in Bulgaria during the summer period is to engage the young people to be part of social, youth work, educational and sport initiatives. With this project our purpose is to *solve* this case.

1. Hopefully, we are a group of young and ambitious coordinators who are trying to come up with new *educational trends*. We do believe that by sharing our motivation it will get bigger and stronger. By helping to our peers, we will educate them in the field of digitalization, environment and entrepreneurship. At the same time with no doubt, we will travel a lot in order to get to know *nature and country in historical and cultural aspect*. Our region is full of sightseeing and its near by to the seaside. In your leisure time you will be able to enjoy the sea and have the nature under your feet. Its project's goal is to mix education and travel. It will be in three places: *Rhodop mountains, Isparih* and *Razboyna*.

📍 Razboyna is located  
37 km away from  
Sunny Beach

#### 4. Financial part

Life in Bulgaria is *very cheap*. To be able to need a financial grant from your university. *We do not offer* you any financial security, as the initiative, which is offered on a voluntary basis and is opened in small places, does not have access to quality education. We strongly share European values and rely on the solidarity of our European peers, who provide high knowledge and culture and skills to come to our country and demonstrate the strength of the United Europe and together prove to Eurosceptics that young people can continue to offer Europe. Through this summer academy together we will change for the good life of at least *150 young people* with fewer opportunity and at risk of poverty.

#### 5. Logic of implementation

Arriving in the town of Svishtov and going through training for organizing youth educational activities through the approach of non-formal way of education. Then the participants will be divided into teams and each place will have *from 2 to 4 members* visit different places in Bulgaria, such as: (photos from Sunny Beach, the Rhodopes, Isperih)

#### 6. Food and accommodation

Participants buy their own food from the scholarships. Accommodation and transport: *200 euros per month*. We will provide them with accommodation in double rooms and provide them with a car to travel with.

#### 7. Every week they will deal with children for 4 days, and for three days they will have the opportunity to get to know Bulgaria. They will work with the children for 8 hours a day.
